

# 681 East 5th St Boston, MA

A rare beauty that will leave you speechless. This sparkling 2bed/2bath unit was part of a new conversion in 2006 and has been lovingly maintained by a fastidious owner ever since. Gorgeous floors and fine details throughout....everything is in pristine condition. The thoughtfully laid out space offers a large master suite with walk-in closet, queen-sized guest room and full guest bath, a lovely living room with gas fireplace and a well-appointed open kitchen and dining room. The pictures speak for themselves, so let us move on to the icing on the cake: a refreshingly spacious, deeded GARAGE parking spot conveniently located just outside the back door. The garage offers oodles of space for easy parking and tons of storage as well. There's also a generous rear deck, in-unit laundry and additional storage in the basement. This unit truly will tick all the boxes on your wish list.
